

Animated Mechanical Spider

Thanks for downloading. Please leave a star rating and review if you liked my asset so I can continue to produce more high-quality work.

If you would like to support me further you can donate to paypal.me/ChrisBurns3D

This Package includes:

- A fully animated Mechanical Spider
- 2 Texture/Material variants
- 4 Animations Idle, Walk, Die, Attack
- Fully animated hydraulic joints in the legs
- 2K textures

This package now also includes an example scene where you can click to command the Spider's destination and it will walk there.

There is also a custom Editor script you can find on the top level of the Spider prefab that will help with applying materials
